

The Kingston Daily Freeman

FOUNDED IN 1871. CITY OF KINGSTON, N. Y., WEDNESDAY EVENING, JULY 22, 1925. PRICE THREE CENTS.

How Soft Drinks May Be Regulated By Kingston, City

Provisions of Ordinance by Which City May Regulate Places Where Non-Alcoholic Beverages Are Sold—Drafted by Direction of Common Council.

In accordance with recent action of the Common Council, an ordinance by which the city of Kingston would regulate places where non-alcoholic beverages are sold in the city was prepared by Corporation Counsel Jennings and copies were ordered printed for distribution among city officials and private citizens in order that the proposed ordinance might be studied and thoroughly understood by everyone before further official action is taken. Copies of the proposed ordinance were distributed to the aldermen at Tuesday night's meeting of the Common Council and may be obtained by citizens who are interested in the subject.

The proposed ordinance is as follows:

An ordinance to regulate the sale of non-intoxicating liquors and beverages in the city of Kingston.

The common council of the city of Kingston do ordain as follows:

Section 1. Definition. A refreshment business, for the purpose of this ordinance, is defined as a business conducted or proposed to be conducted for the sale or offering for sale at retail for consumption on the premises where sold, either as a separate business or in connection with any other business, of any malted or vinous beverage, any soft drink, (except tea, coffee, milk, chocolate and cocoa), any carbonated beverage and any other beverage or liquor produced by the process by which beer, ale, porter or wine is produced. The word "person" and "applicant" as used in this ordinance shall include an individual, society, club, firm, partnership, corporation and association of persons.

Section 2. License. A refreshment business, as herein defined, shall not be established, maintained or conducted within the city of Kingston, without first having procured from the board of health of the said city a license for that purpose. Every person, before establishing, maintaining or conducting any refreshment business, as herein defined, shall, before being so licensed, pay to the treasurer of the city of Kingston the sum of \$25.00 for each year of the term of the license, and for each stand, place, room or enclosure or for each site of rooms or enclosures which are in direct connection with or continuous to each other. All such licenses shall expire on the 31st day of December next following their issue.

Section 3. Application for License. Any person desiring to establish, maintain or conduct a refreshment business as defined herein, shall make application for a license in writing to the board of health upon blanks prepared and furnished by the city. Such application shall contain the names and residences of the applicants, if an individual, firm or partnership, or the names of the principal officers and their residences, if the applicant is a society, club, corporation or association of persons. It shall also give the name or names of one or more persons whom such society, club, firm, partnership, corporation or association of persons shall designate as manager or persons in charge, with the addresses of the same. Such application shall further state the following:

(a) The length of time such applicants, if an individual, firm or partnership, or the manager, if the applicant is a society, club, corporation or association of persons, has resided in the city of Kingston, his or their places of previous employment, whether married or single, whether he or they or any of them have been convicted of a felony or misdemeanor, and, if so, what offense, when and in what court.

(b) The premises where such refreshment business is to be conducted, whether maintained, giving street and number and the name and address of the owner of said premises.

(c) Whether such business is to be carried on in connection with some other kind of business.

(d) Whether the applicant or manager had, either alone or with someone else, previously engaged as owner or employee in conducting a saloon, cafe, club or other business of similar nature, where intoxicating liquors were sold, when and where and for how long.

(e) The floor on which such refreshment business is to be located, and whether any partitions or obstructions separate or divide the rooms therein or in any way prevent a clear view thereof from the street, all on the ground floor and from the entrance, if on any floor other than the ground floor.

(f) Such other information as the board of health may from time to time require.

(g) The application shall be subscribed and sworn to before a notary public or other officer authorized to administer oaths in the city of Kingston.

Britain Favors German Pact

General Satisfaction Over Terms of German Reply to French Note—Impression Prevails That Allied Conference Will Follow.

By Telegraph to The Freeman.

London, July 22.—British political circles and newspapers greeted with satisfaction today the terms of the German security pact reply, interpreting the note as indicating that a basis for agreement can be found.

It all depends on how far Germany and France can agree on the interpretation of each other's terms, according to the Telegraph. The Times and Post both applaud the general conciliatory tone of the note. Several points evidently were included for German home consumption, according to the Daily News, but calling attention to Germany's suggestions about disarmament, the News intimated that it might be a good thing to consider disarmament along with the past.

The general impression was that the note will lead to an Allied conference at Brussels or The Hague, probably late in August or September.

Fire Board Asks City to Issue \$25,000 Bonds

Money So Obtained to Purchase Equipment and Repair Fire House—Council Tenders Vote of Thanks to Cornell Estate Heirs—Other Matters.

The board of fire commissioners Tuesday evening submitted a request to the common council that the city issue \$25,000 in bonds, the proceeds to be used for purchasing a pumper and making repairs to Willetts Hose Company and other engine houses in the city. The request was referred to the finance ways and means committee who will probably make a favorable report at the August meeting of the council.

At the last meeting of the fire board, as stated in The Freeman at the time, the question of issuing bonds in the sum of \$25,000 was discussed and it was decided to take the matter up with the common council. The fire board estimates that the new auto pumper for Willetts station will cost \$12,500 and repairs to the building \$3,800. The remaining \$9,700 will be used in making minor repairs to Corbitts Hose, Rapid Hose, Cornell Hose and other engine houses.

Bryan Refuses Joint Debates

Has Invariably Declined Them Since 1890, He Says—Suspends Lecture Tours for Literary Work.

By Telegraph to The Freeman.

Dayton, Tenn., July 22.—William Jennings Bryan, leader of the fundamentalist cause in America, will refuse all invitations to debate the issues of the Scopes trial, he announced here today.

The Commoner said he had suspended his lecture tours and would devote his time in the future to literary work. He has received hundreds of invitations and challenges for joint debates.

Bryan denied reports that he planned a series of joint debates with Clarence Darrow.

"Ever since the presidential campaign of 1896, I have been receiving invitations to debate on every subject," said the Commoner. "The challenges have been innumerable. I have invariably refused."

"Recently, several institutions have mentioned Mr. Darrow as an opponent. I have had a number of invitations from atheists and agnostics and have felt less inclination to accept them than to accept invitations to speak on economy and governmental subjects. Moreover, having heard Mr. Darrow, I am not at all disposed to invite Christians to come to a meeting where they would hear their religion slurred and sneered at. He has freedom of speech and can draw crowds of his own."

Lawyers Prepare Papers on Appeal In Scopes Case

Conviction of Teacher Who Taught Evolution Will Be Carried to Tennessee Supreme Court—Scopes Seeks Higher Education—Bryan Starts Education Campaign.

By Telegraph to The Freeman.

Dayton, Tenn., July 22.—Interest in the world's greatest misdemeanor case, which developed into passionate warfare between religious fundamentalists and apostles of science during the trial of John Thomas Scopes, reverted today to the constitutionality of the Tennessee anti-evolution law under which he was convicted.

Counsel for Scopes were drafting a "bill of exceptions" for presentation of their appeal to the Tennessee Supreme court at Knoxville, within thirty days.

In the higher court, defense attorneys announced, they will fight chiefly to have the law declared unconstitutional. Every weapon, however, will be used to reverse Scopes' conviction, including all the "exceptions" taken during the eight day trial. The "bill of exceptions" will include five principal points as follows:

1. That Scopes was convicted under an unconstitutional law, which denied him his guarantees of religious liberty, freedom of thought and sacredness of property rights.

2. That the law was doubly unconstitutional because it was "indefinite," containing such controversial terms as the "Bible" and the "story of creation," and the debatable phrase, "lower order of animals."

3. That Scopes was denied a fair trial because the court excluded all expert defense testimony interpreting the "indefinite" law.

4. That he also failed to get a fair trial because the court ruled he need only be convicted of teaching a theory which denied the divine creation as recorded in the King James version of the Bible, and.

5. That the jury was prejudiced by the court allowing fundamentalist prayers at the opening of each session.

The town of Dayton meanwhile sadly watched the great exodus of lawyers, newspaper correspondents, magazine writers, press photographers and curiosity seekers. Every outgoing train carried away a quota while a small army boarded a "protoplasm" special train for New York, which left at noon. The streets for two weeks past thronged by crowds, were almost deserted. Dayton was slowly returning to normalcy.

Sues To Prevent Paying Teachers Of Evolution

Washington Taxpayer Asks Federal Court to Restrain City From Paying Salaries to Instructors, Basing Suit Partly on Text Book Used by Scopes in Tennessee—Alleges Children Are Taught Disrespect of Bible.

By Telegraph to The Freeman.

Washington, July 22.—The conflict between religion and science, exemplified in the Scopes anti-evolution trial in Tennessee, today came squarely before the Federal courts of the District of Columbia.

Declaring that children in the national capital were being taught "disrespect of the Holy Bible," Loren H. Wittner of Washington asked the District Supreme court to enjoin the city's fiscal agents from paying salaries to instructors who teach the evolutionary theory of the origin of man in conflict with divine creation.

Teaching of evolution, Wittner said, was expressly forbidden by Congress in the last district appropriation bill, which provided:

"That no part of this sum shall be available for the payment of the salary of any superintendent who permits the teaching of, or of any teacher who teaches, disrespect of the Holy Bible."

Same Book Scopes Used.

In his bill of complaints, Wittner cited 13 specific instances of "disrespect to the Bible" through teaching from the approved text books on natural science. One of the books singled out was Hunter's "Civic Biology" for the teaching of which John T. Scopes was convicted at Dayton.

Daniel J. Donovan, auditor; James R. Lusby, disbursing officer, and Frank White, treasurer of the United States, were named defendants. Frank W. Ballou, superintendent of schools, for approving, and W. P. Hay, head of the department of biology and chemistry, for teaching theories in conflict with the Bible, were also cited by Wittner.

The injunction was filed admittedly as a "test" case, in much the same spirit as the Dayton trial was started—to determine by law whether evolution can be taught by teachers paid from public funds. Wittner described himself as a "Federal tax payer," but said also he was "somewhat of a liberalist and wanted this thing settled."

If the injunction is denied, Wittner said there would be no question of the right of instructors here to teach natural science, even though the theories conflicted with the Bible.

13 Instances of "Disrespect."

Washington children are being taught disrespect to the Bible, Wittner said, because of the approved text books:

1. Doubt and contradict the teachings of the Bible.

2. Teach that man and apes and monkeys belong to the same family.

3. Teach that after death disintegration of organic bodies takes place, making it impossible for any human to live again.

4. Deny the possibility of a miracle, or the supernatural.

5. Teach that man has evolved through millions of years from a single protoplasmic cell and is ever evolving.

6. Teach that man evolved from lower animals and not from Adam and Eve.

7. Declare that blood is the most vital fluid of the human body, while God arose bodily from the dead when no blood was left in his body.

8. Teach that one elemental matter cannot be changed into another simple elemental matter, whereas God made full grown woman out of the rib of man, changed the dust of Egypt into lice, and made all the earth out of nothing.

9. Teach that rainbows are reflections of light rays on water in the clouds, while the Bible says God made the rainbow as a promise to Noah that he would not again kill every living thing by flood.

10. Teach that it is impossible for a living body to overcome the law of gravity, while the Bible says Jesus Christ ascended to Heaven after He arose from the dead.

11. Teach that life has been on earth for millions of years and that the earth was once a red hot mass which cooled and hardened, while the Bible teaches that the earth was created out of nothing less than 6,000 years ago.

12. Teach that earth is round, while the Bible teaches the earth is flat and on a foundation.

13. Teach that language and speech are the gradual outgrowth and unfoldment of thought brought about by the evolution of man, whereas the Bible teaches that the earth had one language and one speech until God suddenly confounded their speech at the tower of Babel.

Continuation of such instruction, Wittner said, out of the funds collected as taxes, would work injury and irreparable damage and loss to the plaintiff and to all of the taxpayers of the district and of the United States.

Woman Overcome By Gas

Charles A. Lasher, commercial manager of the Kingston Gas and Electric Company, sent in a communication in which he stated that on July 19 it was discovered that Mrs. P. D. Bishop of 37 Taylor street, had been overcome by gas at the residence of Mrs. Krom at 128 North Front street. This accident, he wrote, was caused by a leak of gas through an inferior make of gas tubing.

Need Gas Appliance Ordinance.

Mr. Lasher also called attention to the fact that the electric company last year had submitted a proposed ordinance governing gas appliances and said that the city should have an ordinance governing the use of standard types of appliances which will safeguard the public in the use of gas. The communication was referred to the laws and rules committee.

Neurotic Married Women Unhappy

By Telegraph to The Freeman.

London, July 22.—Expert medical testimony that few neurotic women are happily married featured today's session of the court which is hearing cross divorce petitions filed by Mr. and Mrs. Baldwin Raper, the latter formerly the marchioness of Conyngham.

Dr. Christian Miller, a nerve specialist, who examined Mrs. Raper, said she was neurotic. This, the physician said, was a vague word but it covered a certain type and applied to a great number of modern women who require kind and firm treatment. In the absence of such treatment, he said, many neurotic women are unhappy in the married state.

Raper's counsel renewed their request that the evidence which the presiding judge yesterday characterized as "odious and disgusting" be heard in camera.

This came when Mrs. Raper testified concerning her husband. She said his conduct drove her into a frenzy and she was forced to threaten to do him bodily injury unless he desisted.

Raper's counsel again entered a denial of Mrs. Raper's charges.

A "Higher Up" Is Suspected

By Telegraph to The Freeman.

Schenectady, N. Y., July 22.—Harry C. Fairbanks, confessed kidnapper of Verner Alexanderson of this city, is shielding someone "higher up" is the belief of local authorities.

Fairbanks, arrested at Fall River, Mass., insists, however, that he and Stanley G. Crandall took the boy as a screen for their bootlegging operations. Crandall is believed to be in South America.

"If Fairbanks wants to stick to his present story we are not concerned," District Attorney A. T. Blessing said today. "If he was hired to steal the child and he wanted to tell us that, we will make every effort to apprehend the persons guilty of the crime. But if he wants to go to prison for someone else, that is his business."

Fairbanks' trial will be conducted at the October term of the county court.

Syracuse Streets Flooded by Storm

By Telegraph to The Freeman.

Syracuse, N. Y., July 22.—With streets in half a dozen sections of the city inundated and storm sewers taxed to capacity to keep the rest of the city free of water, Syracuse today experienced one of the most severe rain storms of the year, flooding New York Central lines into the city.

At 10 o'clock a. m., the rainfall totalled 2.34 inches with more in prospect throughout the day, which broke dull and drab in the midst of a steady downpour.

Scopes Will Enter University

By Telegraph to The Freeman.

Young John Thomas Scopes, with a \$500 bond hanging over his head, will leave for his Paducah, Ky., home about Sunday to enjoy a month's vacation. His present ambition is to devote the next three years of his life to a higher university education and a \$5,000 fund for this purpose already has been started among the educators who came here to defend him. He has definitely decided not to return to his teaching job in the Rhea county high school. It was rumored he might go to the University of Chicago for one year and to Harvard for two years.

Clarence Darrow, chief of Scopes' counsel, will speak in Knoxville before returning to his Chicago home, while Dudley Field Malone left for New York this morning.

Arthur Garfield Hays will be kept busy preparing the case for appeal to the higher court.

His Bail Bond an Engagement Ring

Redmond McGee Arrested for Driving Without Operator's License Had No Cash and Young Woman Left Engagement Ring as Bail.

Early Tuesday evening Officer Bowser at Wall and North Front streets noticed Redmond McGee of Yonkers drive past the traffic signal and stopped him. Then it was the officer ascertained that McGee had no operator's license and an arrest followed.

At police headquarters neither McGee nor any of his friends in the car had any money to leave as cash bail for his appearance Thursday in police court. In the car with him was two other young men and two young women. One of the men, William Bailey, induced his lady friend to leave her engagement ring with the police as security for McGee's appearance, which she did.

McGee said that they were on their way to Roscoe, Sullivan county, but had been misdirected and landed in Kingston instead of Newburgh. When they reached Port Ewen they had run out of gas but had prevailed upon some one to give them some "on tick." As they still had to travel over sixty miles to reach their destination and were without funds, the police are wondering how they got there on their gas supply.

Tabulate State Census Figures

Most of Cities Will Show Increase in Unofficial Report—Figures Will Not Be Known Until Every County Is Tabulated.

By Telegraph to The Freeman.

Albany, July 22.—The work of tabulating the state census figures is being speeded up with the expectation that within a week or ten days the first of the figures will be made public.

While there is nothing official yet, it was declared today that most of the cities of the state would show a decided increase in population over 1920, when the last state census was taken.

The census was taken as of June 1. Most of the enumerators were women. This is the first time in history that a woman has been in charge. That woman is Mrs. Florence E. F. Knapp, secretary of state.

An appropriation of \$1,290,000 was made by the 1925 Legislature for the census work. The census of 1920 cost the state about \$500,000.

According to tentative plans the figures will be made public by counties as fast as the counties are completed. This will mean, it was said, that the state's total population will not be known until every county has been tabulated.

Herbert S. Sisson, former state highway commissioner, is in charge of the tabulation work. Colonel Lafayette B. Gleason, long prominent in the Republican party in this state, was Mrs. Knapp's first assistant in the work.

The actual work of taking the census lasted about two weeks. Many of those employed as enumerators were school teachers.

REFLOAT STRANDED FREIGHT STEAMER

By Telegraph to The Freeman.

Chatham, Mass., July 22.—The freight steamship Anna Jensen, which ran on to a sand bar near Old Harbor Beach, was refloated at high tide today, by the revenue cutter Ossipee.

The Jensen, bound from Windsor, N. S., to New York with a cargo of iron, proceeded after being stranded nearly 24 hours.

The captain and crew remained aboard the steamship, refusing offers by coast guardsmen to be taken off.

STATEN ISLAND POLICE WILL ARREST "PETTERS"

By Telegraph to The Freeman.

New York, July 22.—"Petting parties" are dangerous—at least in automobiles.

So say the police of Staten Island who issued an order today for the arrest of "petters" found in automobiles with lights out.

A number of collisions resulting from machines parked along the highways with lights extinguished has led to the order.

ARRANGE FRENCH WAR DEBT TO EUROPE

By Telegraph to The Freeman.

Paris, July 22.—M. Barraud, Moreau-Neret and Robert Pontier, experts from the financial ministry, will go to London next Monday to begin negotiations looking to the funding of the French war debt to Britain.

M. Caillaux, minister of finance, will go to London the first of August to participate in the negotiations.

Hylan Will Refuse Place on Bench

By Telegraph to The Freeman.

New York, July 22.—Mayor Hylan today told newspapermen that he had not been approached to renounce his candidacy for re-election and accept a nomination to the supreme court bench instead. He said that under no circumstances would he consider such a proposition.

FRANCE PREPARES TO SEND DEBT COMMISSION

By Telegraph to The Freeman.

Paris, July 22.—The character of the debt commission to be sent to the United States, probably in September, was determined at a joint conference of the foreign office and financial ministry last night, but the delegates have not yet been selected. It was learned.

A prominent political figure, probably either Franklin Doolittle, or Senator Borah, will head the mission which will include several members of Parliament and five or six financial experts.

M. Caillaux, finance minister, is making a great effort to arrange his affairs so he can be in Washington during part of the negotiations.

FOUR YEAR OLD BOY FOUND DROWNED IN EAST RIVER

By Telegraph to The Freeman.

New York, July 22.—The body of four year old Robert Porter, missing East Side boy, was found floating in the East River today. It was removed to the morgue to await post-mortem examination by the child's parents.

The Porter boy disappeared from his home last Sunday evening, which police have worked on the theory he was kidnapped. It was feared he had met a fate similar to little Irving Plinkoff, found slain in a cellar last October.

BOSTON'S CAMPAIGN FOR SAFETY CONTINUES

By Telegraph to The Freeman.

Boston, Mass., July 22.—As the trial of 12 defendants in the Pickwick night club building collapse, in which forty-four persons lost their lives, not under way today with the taking of testimony, the city of Boston's campaign for safety in dwellings advanced.

Warring walls impelled 120 men, women and children, as a West End tenement house interior and the occupants were ordered out until the cracked walls were repaired. Many fled to the street in panic.

Eight families vacated a five story brick apartment building in the Back Bay. The building settled and showed cracked walls.

Warrants were sent out by the city's law department notifying 10 rooming house owners in the South End and Roxbury that they must vacate at once for failure to equip their properties with fire escapes.

STATEN ISLAND MAY UNDER ARREST FOR RECKLESS SPEED

By Telegraph to The Freeman.

Franklin C. Ellis of Staten Island was arrested at the Roundout Creek Bridge on Tuesday afternoon by Officer Aley on a charge of reckless driving in running past the traffic signal at such a speed that he was unable to stop when signaled until he had gone some distance. Ellis furnished \$25 cash for his appearance in police court.

CATHOLIC DENIES REPORTS OF POPES ILLNESS

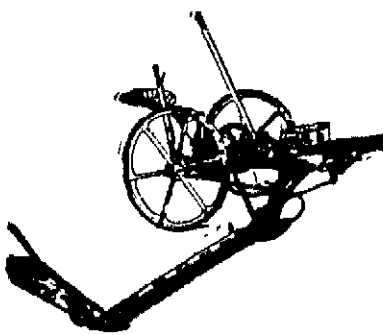

By Telegraph to The Freeman.

Rome, July 22.—Reports that Pope Pius was ill were denied today by Vatican officials. The pope said Mass this morning, a large number of holy men pilgrims assisting.

Sure Relief FOR INDIGESTION

Ancient Mission To Be Restored

Santa Barbara Will Collect \$500,000 to Rebuild Historic Structure—Twice Partially Destroyed by Earth Tremors.

By Telegraph to The Freeman.
Santa Barbara, Cal., July 22.—Silver bells at Santa Barbara's world-famous Old Mission, which for more than a century have sent their notes across green lawns and gardens to the purple hills and blue mountains surrounding the city, are to ring again.

The historic mission, fearfully wrecked by the earthquake which half destroyed Santa Barbara the morning of June 20, will be restored, funds for that purpose now pouring in from all sections of the world.

Newspapers, associations and societies are behind the movement to rebuild the mission, and their goal is the sum of \$500,000, which will insure complete restoration of the wrecked structure.

Both towers of the mission, which carried the bells, were destroyed. Inside the church the damage was extremely heavy and practically the entire structure will be rebuilt.

Built in 1786, the Santa Barbara Mission was the best preserved, prior to the earthquake, of any of the old California missions, all of which were constructed by Franciscan friars as they journeyed northward from San Diego.

Constructed of unburned brick and stone by priests and Indians with a few crude tools and without steel, for years the missions have held first place for romantic and historic history among both residents and visitors in California.

Twice the mission here has been half destroyed by earthquakes. In 1813 the present structure was badly damaged by a quake, but later was fully restored.

Pray in Ruins.
Every day since the earthquake the friars have conducted masses in the mission hayfield adjoining the ruins. Before an altar placed beneath the trees the browned padres, in their froed robes of brown, have knelt in the dust.

It is related that a few minutes after the earthquake rocked Santa Barbara, the fathers at the old mission, first rescuing many of the aged friars from the ruins, gathered besides the still cracking walls of the historic structure and prayed.

OUR DAILY PATTERN.

A Dainty Afternoon or Evening Frock.

5038.—Chiffon, crepe or crepe de chine embroidered or beaded would be attractive for this model. It is also nice in satin or taffeta. The design may be developed with or without the sleeves.

The pattern is cut in 3 sizes: 16, 18 and 20 years. An 18 year size requires 4 1/2 yards of 32 inch material if made with sleeves. The width of the dress at the foot is 1 1/2 yard. Without sleeves it will require 4 1/4 yards.

A pattern of this illustration mailed to any address on receipt of 15c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notes.
Send 15c in coin or stamps to The Freeman for our up-to-date spring and summer 1923 Book of Fashions, showing color plates, and containing 600 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

WALK IF ENGAGED IN SEDENTARY OCCUPATION.

The average man engaged in a sedentary occupation should walk in the open at least three miles a day, according to Dr. George E. Kanouse, of Newark, N. J. More than that is not too much, he adds.

"Walking by its effect on the muscles stimulates the heart, the organs of digestion, and thus produces an invigorating effect upon the whole body," says Dr. Kanouse, who is associate medical director of the Prudential Insurance Company of America.

The manner of walking determines to a large extent its value as an exercise. One should walk briskly, vigorously, and not in a leisurely stroll, if benefit is to be derived from the walk. Cross country walking is preferable to striding along city pavements, for new scenes engage the attention and remove the sting of drudgery, into which deliberate walking oftentimes descends.

The automobile has not been an unmixed blessing," the physician says. "It has made accessible many places hitherto remote; it has promoted social intercourse, and facilitated the transaction of business. But it has also cut heavily into the amount of daily exercise which man had previously obtained on foot. In pre-automobile days man walked to and from his work, about town, and from the station. Now he uses a car. He saves something in time but loses much healthful exercise."

Contrary to a general belief, Dr. Kanouse points out, the man in the city, particularly the youth, does more real walking than his country cousin. Sundays and holidays always witness the exodus of large crowds from the cities, with lunch kits and hiking togs, off for a day in the country. On the other hand the man in the country does not stir about much, except in the course of his work. His idea of an outing is

generally a ride in the car to some fixed point.

"Walking will not only save wear and tear on the tires," he says in conclusion, "but it will prolong life, if regularly indulged in. It is the simplest and most feasible form of exercise."

SHANDAKEN.

Shandaken, July 21.—Dr. and Mrs. Noguchi of New York are at their summer home in this village. Dr. Noguchi is with the Rockefeller Institute of New York city.

Mrs. Harry Gosson and children of Marlborough are visiting at her parents, Mr. and Mrs. Burr Knight.

Mrs. F. S. Osterhoudt who has been visiting friends at Mt. Kisco, Nyack and Highland has returned home.

Wesley Scudder was taken to the Kingston City Hospital on Monday for treatment.

Mr. and Mrs. Grant Churchill of Glen Ridge, N. Y., were visitors at F. S. Osterhoudt's on Sunday and Monday.

S. C. Schon formerly employed by the Ulen Contracting Corporation here has gone to Poland where this company has a contract of greater magnitude than the Shandaken tunnel.

Mrs. Elbert Rosa of Kelly's Corner is visiting friends in this vicinity.

Mrs. Oscar McCullough of Philadelphia, Pa., is visiting her aunt, Mrs. C. E. Wood.

Mrs. Grace Buley is visiting friends in Syracuse, N. Y.

The Ladies' Aid fair will be held in the church hall on Thursday and Friday, July 23rd and 24th, afternoon and evening. There will be special music and singing on Thursday evening beginning at eight o'clock.

Mrs. Abram Rider is entertaining her sister, Mrs. Markle from Oneonta, N. Y.

Dewitt Van Buren and family of Brooklyn, N. Y., are spending their

Kitchen Devices Rare in England

By Telegraph to The Freeman.
London, July 22.—Lady Nott-Bower, one of England's delegates to the International Council of Women in Washington, may not have been impressed by American "hustle"—she said it was a myth—but she was amazed at the well-arranged, well-equipped American kitchens.

To her amazement she found that kitchen labor-saving devices were a natural part of American every-day life, while in England they are the "admirable gadgets of a few fortunate people."

She marveled at floors covered with linoleum or washable rubber, at enamel-topped tables, glass-encased shelves, white enamel stoves "that might adorn a sitting room" and which combine gas cooking with fireless cooking, electrical dish warmers and electrical laundries.

"There must be a catch in it somewhere," Lady Nott-Bower says. "Well it must be admitted that while many of these fittings are pretty general in America, some still remain alarmingly expensive there."

It was to be expected that the English women would come back with the determination to effect some of these improvements in the homes of their countrymen. They have a large field in which to work. Even in London there are many homes not equipped for gas cooking. Ice boxes are practically unknown. Ice is purchased by the average English housewife only on rare occasions.

vacation at their summer home here.

Services in the M. E. Church next Sunday Church school at ten o'clock, sermon by the pastor at eleven o'clock and Christian Endeavor in the evening at eight o'clock.

Fresh Eggs ~ Plus a Secret

THE TECHNIQUE OF THE MAYONNAISE MASTER vs. FACTORY METHODS IN PREPARING MAYONNAISE

As a practical housekeeper you know what a delicate matter it is to prepare mayonnaise.

The ingredients must be just so. They must be mixed just so. A dozen things can go wrong.

There are some foods that can be produced very well indeed by factory methods.

But The Best Foods, Inc. think that mayonnaise is decidedly not one of them.

Hence, the Mayonnaise Master. He is the genius of The Best Foods Kitchens.

He selects and approves the ingredients of Best

Foods Mayonnaise—the fresh eggs broken right from the shell, sweet, clean salad oil, pure fruit vinegar, choice spices.

He watches and controls every step in the preparation.

Every jar of Best Foods Mayonnaise is as truly his personal product as though he prepared it singly for his own table.

And—his is the secret of making a perfect mayonnaise.

It is the secret that makes Best Foods Mayonnaise such a joy to taste and serve.

Just get a jar of Best Foods Mayonnaise. Prepare your favorite salad—dress it with Best Foods Mayonnaise. Taste it—

You'll agree that the secret is well worth guarding on our part.

And well worth buying on yours.

Porter Named "Y" Secretary

Ten Years Has Been Connected With "Y" in Berwick, Pennsylvania—Will Succeed Maurice S. Safford at Local Association.

At a recent meeting of the board of directors of the local Y. M. C. A., the board extended a call to Secretary John Porter of the Y. M. C. A. of Berwick, Pennsylvania, to become secretary of the local association to fill the vacancy caused by the resignation of Maurice S. Safford.

Mr. Porter has accepted the call and will assume his duties later at the local association. President Charles Ramsey of the board of directors of the Y. M. C. A. also a member of the Kingston Rotary Club and at the noon luncheon today he introduced Secretary Porter to the Rotarians of Kingston. Mr. Porter comes to Kingston highly recommended. He has served the Berwick "Y" for ten years as its executive secretary.

THE JOINERS.

Members of Interest to Members of Fraternal Societies.

Court Santa Maria, No. 164, Catholic Daughters of America, will hold a special meeting on Thursday evening, July 23, at 8 o'clock, at the Kingston C. Auditorium. A large attendance is requested, as a matter of importance is to be discussed.

Special business of importance to every member of Tappan Camp, S. of No. 1, will come up at the meeting to be held Thursday evening at 8 o'clock, at the Kingston C. Auditorium. The members of the organization will be made to receive a beautiful gift from an out of town organization. The members of each organization will be repaid for their attendance.

Case of Necessity
The attendant in a dentist's office had to the man with the swollen jaw had just entered: "Do you want a tooth extracted?" "Want it or be smarted. 'What do you think of a lunatic? I've got to."—Boston Transcript.

DIED.

MISS—Bridget Hillis at her home, 83 Broadway, this city, Wednesday, July 22, 1925.

Notice of funeral later. Arrangements by Leo V. Grogan.

FROM—In this city, July 22, 1925. Harry Richard Krom.

Funeral at residence, 18 Hewitt place, on Friday at 2:30 p. m. Relatives and friends are invited. Interment in Hurley Cemetery.

ELANEY—In this city, Tuesday, July 21, 1925, Mary L. Delaney, beloved sister of Miss Elizabeth Delaney.

Funeral Friday, July 24, at 9 a. m. from her late residence, 249 Fall street, and at St. Joseph's church at 9:30, where a high Mass of requiem will be offered for the repose of her soul. Relatives and friends invited to attend. Interment in the family plot in St. Mary's cemetery.

ELFRIDGE—At Hoboken, N. J., Tuesday, July 21, 1925, William J. Selfridge, beloved husband of Rose Clark Selfridge.

Weslowski Is Not a Delinquent

Is Opinion of Local Doctors Whose Examination Didn't Embrace Weslowski's Past Records—Dr. Palmer on Stand.

A very lengthy hearing was held this morning before Judge Morschauer at the Ulster county court house on the application of John Weslowski of this city for release from the Napanoch Institution for Defective Delinquents where he was sent a few weeks ago after being examined by Doctors E. H. Loughran, Deudenhausen and Palmer who pronounced him a mental defective. Chris Flanagan appeared before Judge Morschauer in special term at Poughkeepsie and asked for an examination into the case. An order returnable today was granted and the morning session was taken up in the examination of Weslowski and several doctors. Mr. Flanagan placed his client on the stand and he testified to his record. Doctors John G. O'Leary and Dr. John F. Larkin were called by the defense and testified that from an examination made of the prisoner just prior to the opening of court they would say he was not a mental delinquent.

Dr. Palmer of Napanoch took the stand and gave as his opinion that Weslowski was a mental delinquent with a mental age of nine years and six months. He applied the usual test and also had in his possession the records of the institutions where Weslowski has been confined as well as the police record.

On cross-examination, Dr. O'Leary testified that he had not been informed of the Weslowski's past record except as it was given by the prisoner himself. If his past had been as vivid as the police records and the institution records said, he probably would change his opinion but on his examination he was not in possession of these records and based his examination on what he learned from the actions and statements of the prisoner himself.

The case was continued this afternoon. Col. Henderson of the attorney general's office appeared for the prosecution with District Attorney Traver and Assistant District Attorney Murray. Chris Flanagan appeared for Weslowski who was brought down from Napanoch by guards.

About the Folks

Miss Lottie E. Jones of Washington, D. C., is spending a few days leave at her home, 707 Broadway.

Dr. Joseph Koob of Phoenixia, who has been seriously ill at the Benedictine Hospital, is now convalescent.

Miss Miriam Halloran of 44 Chilton avenue is spending a month's vacation at Compo Beach, Westport, Conn.

Little Miss Grace Cater of 272 Broadway, is visiting her grandparents, Mr. and Mrs. John Wicks of Catskill, N. Y.

J. Graham Rose, who has been seriously ill at his home on West Chester street for over a week, is reported as being slightly improved.

Charles Ingram of 493 Wilbur avenue, who underwent an operation for appendicitis at the Kingston City Hospital, is doing nicely under the care of Dr. Fred Snyder.

The many friends of Prof. Charles Ward of the New Paltz Normal School will be pleased to know that he is convalescing at the Benedictine Hospital following a recent operation.

Miss Minnie Johnson of New Haven, Conn., is spending a few weeks in town, stopping at the Antoinette, 59 St. James street. Miss Johnson has been an annual visitor for the past four years.

Lester, son of Mr. and Mrs. E. Van Steenburgh of Haines Falls, is in the Kingston City Hospital with a broken leg. He has the sympathy of all his friends who hope for his speedy recovery.

Mr. and Mrs. A. E. Brownrigg and son Francis, and Mr. and Mrs. Editha Barnhardt of Downs street, have returned home from a five days' motor trip to Binghamton, Ithaca, Buffalo, Canada, Niagara Falls, Rochester, Syracuse and other points of interest, covering over 1,000 miles.

Mr. and Mrs. Floyd F. Regendahl of Halthorpe, Md., who have been spending a few days with Mr. Regendahl's parents on Johnston avenue, left Tuesday morning for Providence, R. I., and Boston, Mass., and after spending a few days in those cities will go to Baltimore where Mr. Regendahl is employed by the General Electric Company.

Society Notes

Kalenjian-Busch.
Miss Frieda Busch of New York City and the Rev. N. Kalenjian of Kerhonkson, formerly of Armenia, were married in the parsonage of the American Reformed Church in Newburgh on Monday. The ceremony was performed by the Rev. M. Seymour Purdy, close friend of the groom and in the presence of Mrs. Purdy and Miss Marie Fawcett. Following the ceremony, Mr. and Mrs. Kalenjian left by motor for Maine, where they will spend their honeymoon, returning to make their home in Kerhonkson, where the groom is pastor of the Reformed Church. The groom came to America as a refugee some 30 years ago and has been educated here.

Conquest of Self

Real glory springs from the conquest of ourselves; and without that the conqueror is might but the first slave.—E. Emerson.

Winsome Blouse Outfit for Girls' Summer Wear

Bright green is a gay color for sports wear. The outfit pictured above is in a young-apple shade; the blouse lightweight balbriggan; the skirt, with its smart plait, in crepe de chine—and green the color.

Brushing Best Way to Keep Your Hair Fluffy

Whether you have bobbed hair or long flowing tresses, your hair should be fluffy, light, soft and lustrous. Which simply means that your hair should be healthy and clean. For any hair when properly cared for will have these characteristics.

There are so many women whose hair is limp, sticky, dull and lifeless simply for lack of a little common-sense treatment. And no woman can be really beautiful without attractive hair, becomingly arranged.

Invest in a good brush to start your hair improvement campaign, advises an authority. It should be sufficiently stiff to reach through your hair to your scalp. And the rows of bristles should be set far apart to permit of easy cleansing.

Use your brush every morning and every night. Unless your hair comes out in alarming quantities on your brush, you should brush it thoroughly twice a day. Don't be content until your scalp feels warm from the friction. That means that you have stimulated the circulation of the blood through the scalp and so the growth of your hair. But be careful not to pull at your hair as you brush. Your strokes should be firm and long rather than short and jerky and vicious.

Well-brushed hair is usually healthy hair. But you must do more than merely brush your hair to get the best results. Your shampoo is quite as important. And the nature of your shampoo must be determined by the type of hair that you have.

But there is one general rule that applies to hair of all varieties. And it is a rule that is seldom put into effect. It is this: Wash your hair frequently. There is a popular misconception that it is somehow harmful to the hair to wash it often. But the best authorities claim that frequent washing is no more injurious to the hair than it is to your face.

Use warm water instead of hot if your hair is dry. A soap which has an oil base is desirable.

If you have the time to dry it thoroughly, shampoo your hair every week. You should bear this in mind particularly if your hair has a tendency toward oiliness.

Bags of Latest Styles More Simple in Shape

Fancy leather is much in vogue at the moment for bags and many other of the accessories of dress. An entirely new shopping bag is made of soft leather. It is of moderate size, about that of the usual purse bag, and is gathered into a plain leather top shaped like an upright flaring collar.

Instead of the older style metal top, and is drawn together with leather strap in lieu of a wrist chain or handle. These are practical, substantial affairs to be had in several colors, black, brown, tan, taupe, beige, green and scarlet. Another leather handbag shown among English novelties is a flexible model, round and unshaped, being drawn close with leather strings run through slits cut near the top edge. This, too, is made in several colors and is lined in silk to match the outside or a contrasting color. Some unobtrusively smart bags of this description have a lining of bright plaid or flowered taffeta. All bags of the latest styles are more simple in shape. In the manner of trimming and less extreme in size.

Many dainty little silk bags of plain silk, satin or moire are ornamented with a center modulation of needlework. The point being now more in demand than ever. Other handbags in fine corduroy, either hand painted or done in beadwork, are seen in some of these French novelties of brightly colored silk, many of black.

Country's Heat Loss
Heat losses of the United States in houses through radiation, conduction and convection are equivalent to an amount of fuel costing \$1,000,000,000 annually, a nation-wide survey has disclosed, according to a report made recently before a chamber society.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Bridget Hillis died this morning at her home, 83 Broadway. Notice of funeral later.

Harry Richard Krom died today in this city. Funeral at the late residence, 18 Hewitt Place, on Friday afternoon at 2:30 o'clock. Interment in Hurley cemetery.

Emma O'Bryon, aged 72, widow of William Van Valkenburgh, died early Tuesday morning at the home of her son on Ulster avenue, Saugerties. She is survived by three sons, George, Minard and Saugerties, Charles of Quarryville and Frank of Schenectady.

Mary L. Delaney died in this city Tuesday. She is survived by her sister, Miss Sarah Delaney. Funeral Friday morning at 9 o'clock from the late residence, 249 Wall street, and at St. Joseph's church at 9:30 o'clock with a high Mass of requiem for the repose of her soul. Interment in the family plot in St. Mary's cemetery.

Charles Seymour Wilbur, eighty-five years old, dean of Hudson Valley journalists and a Civil War veteran, died Tuesday at his home at Pine Plains, where he began his newspaper career in 1858. He was the proprietor of newspapers in Red Hook, Rhinebeck and Poughkeepsie, and founded "The Pine Plains Register" in 1882. He was a prominent Mason and for fourteen years was president of the 124th Regimental Association, New York Volunteers.

The funeral of Henry C. Meyers was held from his late home, 32 Van Gaasbeek street, Tuesday afternoon at 2:30 and was very largely attended by his many relatives and friends. The funeral services were many and beautiful, testifying to the high esteem in which he was held by all who knew him. The Rev. W.

F. Stowe, pastor of the Reformed Church of the Comforter, officiated. The bearers were James and Jess Meyers, Charles Goble, Ellsworth Dimey, Barton Lasher and Fred Tubby. The interment was in the family plot in Montrose cemetery.

William J. Selfridge died Tuesday morning at the home of his daughter in Hoboken, New Jersey. Mr. Selfridge was for many years a respected citizen of the downtown section of the city. He was engaged in the transportation business and was one of the best known men in that business along the Hudson river and around New York harbor. Besides his wife he is survived by one son, Michael, and two daughters, Mrs. Matthew Mulvaney and Mrs. Cornelius Farley. The body will arrive in this city on Thursday evening.

Funeral from the funeral parlors of James M. Murphy, 174 Broadway, Friday morning at 9 o'clock and at 9:30 from St. Mary's church with a high Mass of requiem for the repose of his soul. Interment in the family plot in St. Mary's cemetery.

Edward Payson Bigelow, 81 years old, sales agent for the American Steel Foundries Company, died Monday from apoplexy at his residence, 25 Washington Square West. He was actively engaged in business until his death. A member of one of New York's pioneer families, Mr. Bigelow spent most of his youth in Maiden-on-Hudson the place of his birth. As a young man he received an appointment to the United States Military Academy through his uncle, John Bigelow, ambassador to France under President Lincoln. After a year's study he left the academy to fight as a lieutenant with the Union forces in the Civil War. He distinguished himself with the First United States Cavalry, participating in numerous engagements. His retirement from active service became necessary, however, when his horse was shot from under him at the Battle of Antietam. After commanding a post in Missouri for several months he retired and entered business. Mr. Bigelow formerly was a governor of the Union League Club and of the Lambs. He leaves his wife and five children. Private funeral services were held today from the residence with interment in the family lot in Pompton, N. J. Mr. Bigelow was a cousin of Poultney Bigelow of Malden-on-Hudson.

KINGSTON, N. Y., JULY 22, 1925.

BRYAN ON DARWINISM.

Mr. Bryan displayed a sense of humor and struck a popular chord effectively when, speaking before the court in the Scopes trial, he followed his reading of a passage from Darwin's "Descent of Man" with the remark: "Not even from American monkeys, but from Old World monkeys." The passage from Darwin which he read ("Descent of Man," No. 278) is as follows:

"The most ancient progenitors in the kingdom of the vertebrata, at which we are able to obtain an obscure glance, apparently consisted of a group of marine animals resembling the larvae of existing ascidians. These animals probably gave rise to a group of fishes as lowly organized as the lancelet, and from these the ganoids and other fishes like the lepidosteans must have been developed. From such fish a very small advance would carry us on to the amphibians. We have seen that birds and reptiles were once intimately connected together and the monotremata now connect mammals with reptiles in a slight degree, but no one can at present say by what line of descent the three higher and related classes, namely mammals, birds and reptiles, were derived from the two lower vertebrate classes, namely, amphibians and fishes. In the class of mammals, the steps are not difficult to conceive which led from the ancient monotremata to the ancient marsupials and from these to the early progenitors of the placental mammals. We may thus ascend to the lemuridae and the interval is not very wide from these to the simiadeae.

"The simiadeae then branched off into the great stems, the New World and Old World monkeys, and from the latter, at a remote period man, the wonder and glory of the universe, proceeded."

The humor and sarcasm of Mr. Bryan's remark that this "glorious pedigree" traced our descent "not even from American monkeys" was presumably more appreciated by his side to the controversy than by the other. Judge Raulston permitted Mr. Bryan to ridicule "this bunch of stuff they call evolution," though ruling against the admission of scientific experts to explain what evolution is, thus providing some basis for the charge of unfairness, but he was undoubtedly correct in holding that the question before the court was not the theory of evolution, but the Tennessee law and whether it had been broken by Mr. Scopes.

Mr. Bryan was also effective when he convicted Mr. Darrow to his face of blaming in the Chicago trial, not Leopold himself, but the books he read and his teachers, for his crime. "If this boy is to blame for this, where did he get it?" read Bryan from the published plea of Darrow in the Leopold and Loeb case. "Is there any blame attached because somebody took Nietzsche's philosophy seriously and fashioned his life into it? And there is no question in this case, but what it is true. Then who is to blame? The university would be more to blame than he is. The publishers (of Nietzsche) . . . are more to blame than he. Your Honor, it is hardly fair to hang a 19-year-old boy for the philosophy that was taught him at the university."

Obviously it can not be fairly charged that acceptance of Darwin is morally corruptive in the sense that the complete acceptance of Nietzsche is, but Bryan's point was that Darwinism, as tending to destroy faith in the Bible as a whole and thus removing the basis of the Christian religion, is at least indirectly corruptive.

THE RAILWAY CENTENARY.

Marvelous has been the development of travel by railroad since passengers were carried over the first line in England in 1825. This is made abundantly clear by the description of the first railway and the exhibition of old models illustrating the evolution of locomotives and rolling stock, which were features of England's recent celebration of the centenary of the "iron horse." On the second day of the celebration there was an imposing parade of the locomotives, coaches and cars of a century, together with "tableaux vivants" showing pictures of the evolution of the wheel from the time of the Pharaohs. It seems that the Duke of Wellington was openly skeptical about the usefulness or practicability of the "iron horse," but that Queen Victoria early had the pluck to ride on one and the good sense to encourage development by further invention.

At the end of a hundred years railway travel has reached a stage approximating perfection in the matter of comfort, speed and even safety. But what will another century bring forth? Will the steam railway train see the end of its great era and be virtually discarded for swifter and better means of travel? It is too early to venture predictions along this line, but already the prosperity of railway companies is threatened by the multiplying motor-bus and the short-haul motor-truck, while the roaring airplanes overhead are widely believed to promise a much more rapid, equally safe, and ultimately as comfortable means of travel in the future.

Will the steam railway train see the end of its great era and be virtually discarded for swifter and better means of travel? It is too early to venture predictions along this line, but already the prosperity of railway companies is threatened by the multiplying motor-bus and the short-haul motor-truck, while the roaring airplanes overhead are widely believed to promise a much more rapid, equally safe, and ultimately as comfortable means of travel in the future.

At the end of a hundred years railway travel has reached a stage approximating perfection in the matter of comfort, speed and even safety. But what will another century bring forth? Will the steam railway train see the end of its great era and be virtually discarded for swifter and better means of travel? It is too early to venture predictions along this line, but already the prosperity of railway companies is threatened by the multiplying motor-bus and the short-haul motor-truck, while the roaring airplanes overhead are widely believed to promise a much more rapid, equally safe, and ultimately as comfortable means of travel in the future.

American Teacher Missing in London

Had \$3,000 When He Disappeared—
 Wife Collapses When Search Fails
 of Results—Was Candidate for
 Senate in 1910.

By Telegraph to The Freeman.
 London, July 22.—Joseph Victor Collins, professor of mathematics at Stevens Point, Wisconsin, normal school, was still missing today, despite an all night search in which the scientist's wife and daughter joined forces with the police.

The daughter was called to examine two unknown men, found in a dying condition, but neither proved to be her father.

The night's ordeal resulted in the collapse of Mrs. Collins today.

The missing professor, who was a candidate for the United States senate in 1910, had American Express Company checks and money to the value of \$3,000 in his pockets when he disappeared. Police believe he fell into the hands of sharpers who may have killed him, after getting his money.

Collins was last seen by his daughter when she alighted from a bus which both had boarded. Her father continued toward the railroad station to secure reservations for the journey to Edinburgh, where he was to attend the educators' convention.

Arranging to Hold Clinics

Miss Lillian B. Hagelweide, R. N., county tuberculosis nurse, is endeavoring to schedule three consultation clinics for diseases of the lungs, and if her plans materialize these clinics will be held in convenient places in the county.

The State Department of Health has expressed a willingness to cooperate to the extent of furnishing the service of two expert examiners and X-Ray operator, if dates do not conflict with those of other counties.

When arrangements are completed newspaper notices giving dates, places and hours of the clinics will be printed and physicians in localities covered will be given admission cards for patients they may wish to refer. They will also be provided with additional information, which will be of help in advising their patients about attending the clinics.

Coolidges Visit Former Home

By Telegraph to The Freeman.
 Swampscott, Mass., July 22.—Back in 1916, Mr. and Mrs. Calvin Coolidge occupied a simple little seaside cottage at Pemberton.

Mr. Coolidge was lieutenant governor of Massachusetts and he used to go home in the evening by the public harbor steamboat to Pemberton and Nantasket.

Today Mr. and Mrs. Coolidge and their son, John, leave White Court, the summer White House, aboard the presidential yacht Mayflower and sail across the bay to revisit the little Pemberton home.

The main purpose of the president's Pemberton visit, however, is to attend the outing of the stockholder-employees of Louis K. Liggett, prominent druggist. Mr. Liggett is an old friend and supporter of Mr. Coolidge.

Our Growing Population.

The following births have been reported to the board of health:

Mr. and Mrs. Alton David Purcell. Alligerville, a son, Frank Elian, at Kingston City Hospital.

Mr. and Mrs. Robert J. Forbes. Rhinebeck, a daughter, Doris Jean, at Kingston City Hospital.

Mr. and Mrs. Raymond Jenkins. New Paltz, a daughter, Margaret Louise, at Kingston City Hospital.

Mr. and Mrs. John Ellis Briggs. High Falls, a daughter, Isabelle Krom, at Kingston City Hospital.

Mr. and Mrs. Charles J. Westcott. S Green street, a daughter, Dolores Katherine, at Kingston City Hospital.

Mr. and Mrs. Harry Lee France. Pine Hill, a son, Edwin Lee, at Kingston City Hospital.

Mr. and Mrs. John Sesser. 71 Garden street, a son, John, Jr., at Kingston City Hospital.

Mr. and Mrs. John H. Waterman. 263 Hasbrouck avenue, a daughter, Eleanor Clara, at Kingston City Hospital.

Mr. and Mrs. Frank L. Phillips. Port Ewen, a son, Raymond, at Kingston City Hospital.

Mr. and Mrs. Frank Smith. Phoenix, a daughter, Lillian Blanche, at Benedictine Hospital.

Mr. and Mrs. James Irving Wood. West Point, a daughter, Florence Mathilda, at No. 22 Home street.

FAMOUS FRENCH ACE
 REFUSED TO AID RIOTS

By Telegraph to The Freeman.
 Paris, July 22.—Captain Rene Fonck, French ace of aces, refused to head the Riff air forces when the chance was offered him a year and a half ago, according to an interview in Petit Parisien today.

He was approached long before Abd-el-Krim turned his major offensive against the French, he told a Marseilles correspondent.

CORNELL HOSE TO HOLD
 ANOTHER BLOCK PARTY

Cornell Hose Company will hold another block party on Abree street, between Home and Warrs streets, on Monday evening, August 3. If stormy it will be held on August 4. The music for dancing will be furnished by the Citizens' Band of which Harry Maibender is leader.

Misses' Children's and Infants' Play Outings and Bazaar. Sandals 5 to 8, \$1.00 to \$1.25; \$1.25 to \$2, \$1.50. First quality at C. S. Wood's.—Advertisement.

ROAD BUILDING

JOHN LISKA WROTE
 BEST ROAD ESSAY

John Liska, Wisconsin Rapids, Wis., wrote the best essay in the 1924 national good roads essay contest for the Harvey S. Firestone four-years' university scholarship. The subject of his essay, which told in simple form the epic story of a country crossroads, was "The Relation of Improved Highways to Home Life." Liska is the fifth high-school student to earn this honor and award.

The contest is conducted each year under the auspices of the highway education board, Washington, D. C., of which the United States commissioner of education is chairman. It is strictly educational in character and in the several states is sponsored by one of the leading universities, or by the state department of education.

Mr. Liska's essay follows: Isolation is the primary cause of the ignorance so evident in rural communities. Poor roads, more than anything else, have forced the farm home into a demoralizing isolation. The improvement of highways, making the consolidated school and social center possible, is injecting new life into homes formerly hopelessly isolated. Home life is broadened and enriched. Boys are willing to stay "down on the farm." Girls cease to envy their city cousins and to leave home for "the bright lights."

Just a few minutes of travel, on a particular road leading out of the city of Wisconsin Rapids, will convince the most doubtful skeptic of the value of good roads and their influence upon home life. About two miles from the city this road branches. One branch is called "the left road," the other "the right road." The left road is almost always in a deplorable condition; the right road is hard-surfaced. The homes on the left road are dilapidated, the front yards scarcely recognizable among the tangle of broken machinery, old wire and various other objects placed "out of the way." The land has been cropped until it is impossible for even quack grass to flourish. The stock, descendants of some grand-dad's scrubs, is now so degenerated that scarcely any characteristics of a high-producing, profitable animal are evident.

Can you expect the boy or girl to remain on the farm under these conditions? Not one boy or girl living on this road has any education above the eighth grade, and very many have not even progressed that far. These young people, many of them lying about their ages, have had to seek a "job" at the store, mill or factory, instead of completing their education. Can home life be pleasant and "happy" where these conditions exist?

The road to the right leads through land slightly more fertile, but more fertile only as a result of better farm management. No farm home on this road, for a distance of twenty miles, is without at least one modern convenience. Several farms are equipped with every modern convenience, both in and out of the home.

The esthetic influence a good road exerts is very evident. Often it stimulates latent self-respect into practical expression. These people are continually adding some improvement in an honest attempt to beautify their home surroundings. Through diversification and rotation of crops they have succeeded in bringing their land to a high degree of fertility, resulting in a more stable income each year. They are sending their children to high schools, agricultural schools and universities. A better education is teaching these children to realize the value of a true home.

In a large measure, on the road to the left, the average farmer has lost his self-respect, has allowed his home to fall below the standard, and has failed to keep in stride with the times. He is considered inferior to city people. Farmers, such as those on the right road, are again placing the farm home upon the pinnacle where it should rest, "The True Home of Man."

How necessary to that home is a good road! What a relief it must have been to those simple folk in Whittier's "Snow Bound" to have the road opened and the floundering carrier bring the village paper to the door!

KINGSTON'S BUSIEST STORE.

SALE OF HOUSE FROCKS

BEGINNING TOMORROW

That Surpasses All

Styles

INCLUDED in this assortment of House Frocks are styles and sizes for young maids, comely matrons and stout women.

The style assortment is so complete that any woman regardless of her taste, can find just the type model best suited to her.

Each one of the House Frocks is a masterpiece in both workmanship and design. Their finish and smart design are the acme of perfection.

Materials

ALL the House Frocks are fashioned of Amoskeag ginghams and Scout percales in guaranteed fast colors.

There are hundreds of pretty new patterns now so much in the limelight of fashion.

All women are familiar with the well-known fabrics found in these garments. They enjoy a firmly established reputation for colors that are sun fast and tub fast.

A House Frock Sensation No Woman Can Afford to Miss

Newest Fashions

In every one of these graceful House Frocks you will find an irresistible style—smarter and more advanced than those you ordinarily see.

All the smart models are extremely well cut House Frocks in dignified treatments especially designed for the women's figure. They are the low-waisted, straight-line styles so much in vogue.

Stout women will find specially designed slenderizing models.

These House Frocks possess every feature that the most particular woman could ask for in cut and finish.

88¢

3 for \$2.50

Carefully Tailored

THESE House Frocks are not merely sewed but are carefully tailored and have the same finish you insist on having in selecting your street apparel.

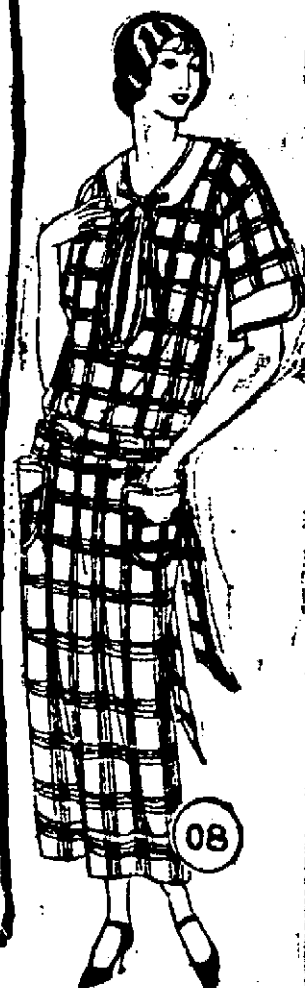

Natural sloping shaped shoulders fashioned to show natural contour of shoulders—comfortable well fitting sleeves—new style extension cuffs—perfect fitting collar—desirable neckline—felled seams—full length sash in fashionable width. And liberal wide hems.

Gathered at front and back—joined at waist—and shirred at hips—creating a most perfect fit.

Carefully designed to insure maximum style, comfort and service.

Trimmings are most desirable. Different applications of dainty piques, organdies, ric-rac and combination pipings in harmonizing and contrasting colors give distinction to the models. Unusual sleeves and large novel pockets increase the beauty and charm of styles.

Can Learn Much by Study of Child Mind

"The child mind," said Professor Davidson, "is almost beyond comprehension, and yet, if studied carefully, it is the key to all psychology, for children are true mirrors of human nature. We often wonder why Robert insists on a five-cent bat like Ralph's, instead of the better, more costly one his father bought him, and why Mary threw her wax doll into the

corner and demanded a rag doll like Martha's.

"One Christmas I sent my niece and nephew each a ring. Evidently a ruby and Alfred's a plain seal. My sister, with many exclamations, presented the rings and waited for the happy burst of joy, but to her amazement Alfred began to cry.

"Why, Alfred, what's the matter? demanded his mother.

"Oh," sobbed Alfred, "I want a ring with a stop-light."

Hobbies of the Great and the Near Great

Being a Series of Intimate Glimpses Into the Fads and Foibles of Well-Known Figures in National Life.

WILLIAM E. BORAH.

The world has beaten a pathway to his door only to find Senator William E. Borah (R., of Idaho) living with the simple dignity of a small-town lawyer.

If his colleagues in the senate were to name the greatest living American statesman they would choose Borah, but they also would bestow upon him the title, "Greatest Commoner" of them all.

For if Borah has a weakness to plague his admirers in official circles, it is his simple mode of livelihood. The Idaho Senator may occupy the first page of every newspaper in America this morning and be found this afternoon riding a street car home from work, rubbing elbows with thousands of government employees. He may be called to a White House conference and he'll pursue the same course of conduct as if responding to a telephone call from the corner drug store in his home town of Boise.

Borah has two hobbies. First comes "Jester," his sorrel riding horse, and second, "Bill" Hart, of movie fame. He has a weakness, too—that persistent riding of street cars.

"Jester" is more than a riding horse to Borah. It is his companion. It is while riding "Jester" that Borah plans his speeches, ponders over weighty legislative problems and reaches important political decisions. And Borah looks upon "Jester" as an almost human companion to whom he can turn in any difficulty.

Fond Side Revealed.

One story will suffice to show Borah's love for the animal. Recently while riding in a Washington park, "Jester" reared as a squirrel ran across the bridge and Borah was almost unseated. In momentary wrath, he piled his whip to "Jester's" flank. Thereafter "Jester" cantered with great care.

The ride ended, Borah tendered the horse its customary dose of sugar. "Jester" nosed the delicacy aside, sniffing. Borah was surprised. He tried the gift again and "Jester" again refused it.

Borah went to the Capitol and there he kept thinking about "Jester" and his refusal of the sugar. At last he phoned the stable, worried lest the animal was sick. The groom convinced him that he was in excellent condition. Then Borah decided that the animal was piqued because of the punishment meted him for rearing. With that, Borah dropped all work, left the Capitol and went straightway to "Jester."

An hour's petting at the stable finally won the horse back to normalcy and Borah only left after the gift of sugar had been accepted.

"I firmly believe 'Jester' can reason," said Borah afterward. "He felt I had punished him unfairly. You see, I was deep in thought and paying no attention to him. That piqued him and he reared only in play, to attract my attention. Then, when I whipped him, his feelings were hurt."

Likes Western "Thrillers."

While "Jester" is Borah's chief hobby, the animal also is responsible for the Senator's love of "Bill" Hart's western movies. Borah loves to watch Hart's great horsemanship and his beautiful riding horses. He has been known to travel clear across Washington to see an old Hart film for the second or third time.

Borah also is an omnivorous reader. He selects "heavy" literature, with his favorite subjects ranging from political science to historical works. His command of facts and

dates of history is second to none in Washington. His direct quotations from speeches of William Pitt, Alexander Hamilton, Thomas Jefferson and other great characters of history have time and again amazed his colleagues. He is a lover of Shakespeare, too, with Macbeth and Hamlet favored above others of the master's works.

An anecdote explains his taste of books. On a recent trip two of his secretaries went with him. The long train ride was boring, and the Senator asked the women whether they wanted to read something. Both replied affirmatively, and Borah brought them two books. They were the Bible and Emerson's Essays.

President Provoked.

Borah's practice of riding street cars at all times recently caused President Coolidge some annoyance. The Executive summoned Borah by telephone and then had to wait until the Senator arrived aboard a slow-moving trolley. Now, when the President summons Borah, he sends a White House automobile to carry the Senator to the appointment.

Friends of Borah once protested against his riding street cars.

"You're too well known to ride a trolley like a government worker," they told him. "There's La Follette, Norris, Johnson—they all have automobiles. Why not buy a small car?"

"I can't afford one," was Borah's reply. "I'm a poor man, and I live within my means."

Tomorrow—Andrew Mellon.

Many Freaks in Crop Insurance

Windstorm Insurance Doubled in Some States Since Tornadoes—Premiums Exceed \$30,000,000 Annually—Rates Based on Records.

By Telegraph to The Freeman.
Washington, July 22.—Insuring the crops of the country against unfavorable weather is rapidly becoming an important branch of the insurance business, according to reports reaching the Weather Bureau of the Department of Agriculture. This sort of insurance is issued in many forms.

The oldest line of distinctly weather insurance in the United States is hail insurance on growing crops. Kansas, North Dakota and Iowa lead in the use of hail insurance, having half the hail risks in this country, which totaled \$40,000,000 last year.

Windstorm and tornado insurance premiums now amount to more than \$30,000,000 annually. Since the tornado near Lorain, O., in 1924, and others in Illinois and Indiana this year, the demand for insurance protection against windstorm damage has been doubled. Some banks and mortgage companies now require windstorm policies as well as fire policies before making loans.

Rain insurance differs from other forms of weather insurance in that it does not cover property damage. It is especially designed for events or business enterprises dependent upon public patronage which would be greatly reduced in bad weather.

Rain Insurance Popular.

Such a policy may cover as short a period as three hours—time enough for a ball game, a track meet, a fashion show or an exhibit. Fair managers and retail stores advertise special sales frequently take out rain insurance for a single day. The Weather Bureau reports show.

Frost insurance for fruit trees is the alternative to the cost and labor of orchard heating. It seldom pays to go to the expense of both. Government experts say. General crop insurance has not yet become well established, but is practiced to some extent. Damage by lightning is usually included in fire insurance policies.

Many freak policies are written, such as insurance against a cloudy sky during an eclipse of the sun, or insurance against lack of snow, taken out in two instances—once by a motion picture company making snow scenes and once by the promoters of winter sports in Minnesota.

Rates for all these forms of insurance are based on the records of the Weather Bureau and payments are made in conformity with the indisputable facts furnished by it.

Lubricate your Dollars

There are some motorists who attempt to save money by buying cheap oil. They little realize the false economy of such a practice.

Inferior and "doctored" oil may cost you from \$50 to \$150 a year extra. It costs real money to replace burned-out bearings. It is expensive business re-boring cylinders.

The consistent use of Socony Motor Oil is an investment in motor insurance against future repair bills.

The average consumption of motor oil per car is not over twenty gallons per year. Even if it costs an additional five cents a quart to get the genuine Socony Motor Oil, it would mean only \$4 extra a year—and think of the money saved.

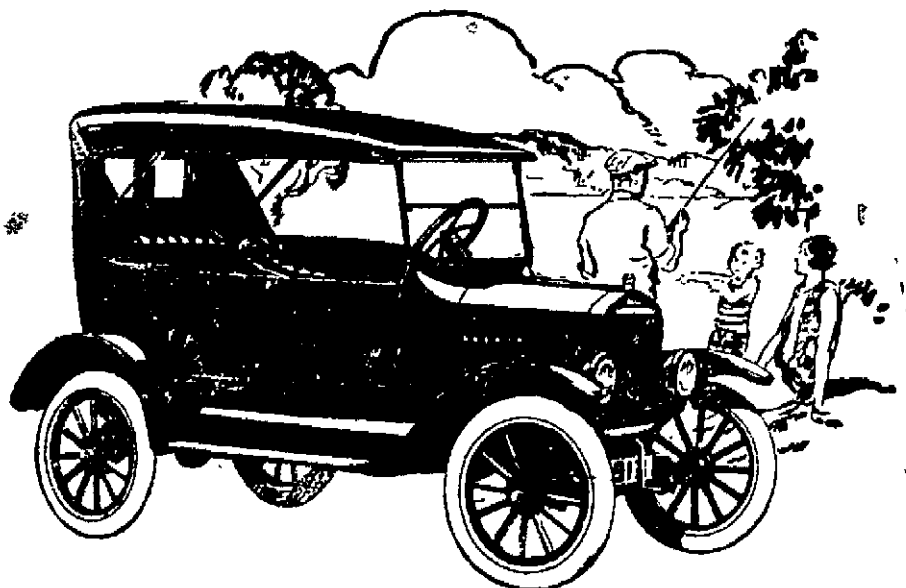

Insist upon Socony Motor Oil*; resist spurious and cheap imitations sold for a price.

STANDARD OIL COMPANY OF NEW YORK
26 Broadway

SOCONY MOTOR OIL

*There's a grade of Socony Motor Oil for every type of motor.
Consult the Socony Lubrication Chart at your dealer's.

"Iron Man" Is Still Going Strong

It off since. The great pitcher, who is fifty-four years old, claims his arm is as good as ever. He is now manager, part owner and pitcher of the Dubuque (Iowa) Mississippi Valley league team.

Indians Sign Tech Star

Joe Palmisano, star backstop of Georgia Tech, has been signed by the Cleveland American League baseball team following the report of a scout.

Golfer Should Turn His Head After Making Shot

"Theories differ as to how long a golfer should stare at the ground after the ball has been started on its ride," says George Duncan, famous British professional. "It has always seemed to me that it is time wasted when a player stands looking at the ground after the shot has been made. Not only that, but keeping the head down tends to hold the shoulders in such a way that it spoils a long follow through. "Of course, the head must not be lifted too fast. That will completely ruin the shot, because raising the head invariably means that the arms will be lifted, which will result in topping the ball. "That, of course, is to be avoided. But there is no necessity for keeping the head down as long as some players do. It takes the club head a mere fraction of a second to travel two feet after the ball has been hit and the head already should begin to turn, allowing the shoulders some freedom and permitting a follow through."

Elect McMillan Captain

Hugh R. McMillan of Kansas City, for two years a forward on the University of Missouri basketball team, was elected captain of the 1926 Tiger five at a dinner given in honor of the Missouri varsity and freshman cagers. McMillan succeeds Frank Wheat, also of Kansas City, who is the only member of the Missouri squad to retire through graduation this year.

Jim Torpe Is Brilliant

Jim Dominick Torpe, brilliant pitcher of New York university baseball team, is one of the outstanding twirlers of the present season in intercollegiate ranks. Three major league ball clubs have offered him contracts.

Pitcher Walter Johnson Is "Slave" to Ice Cream

They say that Walter Johnson is wearing a rubber sweat shirt to reduce. Not that "Barney" is much over weight, but just as a sort of penance to punish himself for his one "disappointment." The Senators' great pitcher, now in his nineteenth major league season, has never been a heavy eater, but still he deems the dinner table his enemy. This is because he has a great love for desserts. Johnson could make a meal just on the fancy dishes at the end of the menu card. His main "disappointment" is ice cream. He cannot take his ice cream or leave it alone. He has to take it all the time. Frequently a thin sandwich or a dairy salad topped by several priming tureens of ice cream is Johnson's dinner. He fears this constant addiction to ice cream is "getting him" and putting an extra inch or two on his belt line. Hence the rubber shirt.

Son of Jake Daubert

George Jacob Daubert of Schuylkill Haven, Pa., son of the late Jake Daubert, who at the time of his death was captain and first baseman of the Cincinnati Reds, is attempting to follow in the footsteps of his famous dad. He is a member of the Penn State freshman baseball squad, and he, too, is a first baseman, showing that his dad probably instructed him.

Jimmy Goodrich Lucky Champion

New Lightweight King Is Called the Punchless Fighter—Goodrich Is Tough and Fast and Deserves Title.

By Telegram to The Freeman. New York, July 22.—Jimmy Goodrich is the young man's name, but quite a few of the boys seem to think it should be Jimmy "Goodluck."

James recently won the New York State Athletic Commission's lightweight elimination tourney and, therefore, is duly recognized by this and the several affiliated state boards as the lightweight champion of the world. Some say he doesn't deserve it, others that he merely is Fortune's fair-haired friend.

Be that as it may, it wasn't luck that has saved him from the ignominy of even a single knockdown since he has been in the ring; nor was it luck that caused him to fight better and better as the tournament progressed.

Improved Fighter.

Goodrich is a much better fighter today than he was when the tournament started, and this angle has been overlooked by those who are writing his history with a sledgehammer. They have confined themselves largely to the indisputable fact that Goodrich's victory over K. O. Clyde Jackle earlier in the tournament was not altogether a popular one, nor was the decision whereby he eliminated Eddie ("Kid") Wagner, not to overlook the fact that he was running a bad second to Sammy Mandell when the latter landed an unintentional foul blow and was disqualified.

The course of events seemed to indicate that Goodrich was a man of destiny. However, there was nothing fustian about the way he outstepped Benny Valger in the semi-finals and scored a two-round knockout of Stanislaus Loayza in the finale of the series.

Tough and Fast.

His detractors say that Goodrich is uninteresting and hasn't the punch of an empty sleeve in his right hand. But they fail to mention that he is tough, fast, smart and has an adaptable style. The latter he varied with remarkable nicety during the tourney, boxing with Mandell and Valger, the boxers, and fighting with Wagner and Loayza, the fighters.

Perhaps, after the anvil artists have ceased their din, it may be dis-

covered that the youth is no man's push-over; neither a Leonard nor a Gans, of course, but something well above the present-day average.

He hasn't even reached his best yet, for Goodrich entered the ring less than seven years ago and then only by accident. It happened thus: Fighter by Accident.

Our hero was born of poor but inevitably honest parents at Scranton, Pa., on July 30, 1900, and at an early age he started out to make his way in the world. He became an apprentice toolmaker in the Buffalo, (N. Y.) plant of the Bethlehem Steel Company, was heckled by the factory's strong man and decided to learn boxing, with the laudable idea of giving the latter a lesson. He became so good he forgot his purpose, quit his job and entered the ring.

One of his early opponents was Billy De Foe, then one of the most promising of featherweights. He took quite a shellacking, but lasted the limit. His subsequent climb was slow, but steady.

Bad Temper Harmful

Bad temper, an eminent pathologist has discovered, has the strange effect of increasing the amount of sugar in the blood by 10 per cent to 30 per cent in the course of a few minutes. That is why an angry man wants to fight the object of his rage. He becomes hot-blooded because the accession of carbonaceous material intoxicates his muscular system. The strange thing is that this rapid change is due to a tiny gland about the size of a pin. When it functions normally a person remains calm and even-tempered. If the essence exudes too lavishly, hatred, passion, and quarrels ensue.

Wise at Last

An old man was leading two lively calves out to pasture in the morning. When he came to the field he tied one of the calves to one of his boot straps and the other to the opposite boot strap while he opened the rickety gate. The calves proceeded to run away. When he was picked up much the worse for wear his wife asked him:

"Didn't you know any better than to do a foolish trick like that?"

"Yes," he answered. "I hadn't been dragged four rods before I saw my mistake."

Fred Clarke Is Helping Pirates

By Telegram to The Freeman.

New York, July 22.—Somewhat the Pittsburgh ball club looks more natural than at any time since 1915, now that Fred Clarke, inspired leader of other and perhaps better days, is again with the outfit. Clarke is sitting on the bench in a more or less advisory capacity and his presence is not exactly a mental hangnail to the Pirates.

Some critics even profess to see in Clarke the answer to the club's recent rush into the league leadership. But they overlook one point: Bill McKechnie was managing the club, without Clarke, when it began its upward climb in May and still may be said to be in direct and absolute charge.

It is hardly fair to Bill to blame him when the club was losing and praise Clarke the moment it begins to declare dividends. The team was almost in the lead, anyhow, when Clarke joined it about a month ago. Greatest Manager.

It was the first time Clarke had had any official connection with the Pittsburgh team in ten years. They were years of varying fortunes, mostly bad, for with all due respect to McKechnie, the Pirates never have had a manager who equaled Clarke's success. He is the man who led Wagner, Leach, Camnitz, Ritchie, Philippi, Adams, Gibson, Leever, Willis and others to Pittsburgh's last pennant in 1909, and topped this off by winning the world series from Detroit.

In previous and even succeeding years, when the old Pirates began to fade, he contrived to muster a contender, being beaten by the Cubs in 1908 only by a few points.

Clarke had plenty of money, however, and the game began to lose its lure. In 1915 he retired and for years thereafter the Pirates seldom were the same.

Callahan Fails.

Jimmy Callahan succeeded Clarke and lasted only to the middle of the 1916 season, when he was waffled into the outer darkness in favor of a football coach, Hugo Bezdek, who had done some scouting for the Pirates.

"Bez" turned out several promising clubs, but fell for an all-year offer from Penn State and resigned. He didn't seem to be going anywhere at the time, anyhow.

George Gibson was the next man-

ager. He seemed to have the pennant won when he came to the Polo Grounds late in the summer of 1917. He had a 7½ game lead, but the Giants knocked the Pirates off in five straight games and ultimately forgave Gibson for that and deposited him in the middle of the 1922 season, naming McKechnie for the post. The latter has assembled what appears to be one of the greatest clubs in recent baseball history and this should be his year. He even has the inspiration of Clarke's personality behind him.

Friar Bacon's Brazen Head Is Old Legend

According to a legend prevalent in the Middle Ages, Roger Bacon (1214-1292) spent seven years constructing a brazen head, which he fancied would tell him how to surround the island of Great Britain with a wall of brass. This head was to speak within a month after its completion, but no special hour was set for its so doing. Bacon, accordingly, set his servant to watch, specially enjoining him to notify his master in case the head should speak. At the end of the first half hour the servant heard the head exclaim: "Time is"; at the end of the second half hour, "Time was," and at the end of the third half hour, "Time past"; whereupon it fell with a loud crash and was shattered to pieces. The servant neglected to call Bacon, thinking he would not care to be disturbed for such a trifle, and thus the knowledge necessary to build the brazen wall was never acquired.

This belief in the existence of a talking brazen head was widely spread in the Middle Ages. Gerbert, a French churchman, is said to have made such a head; and Albertus Magnus is alleged to have constructed an entire man of brass.—Kansas City Star.

How Soft Drinks May Be Regulated

(Continued From Page One.)

ment and methods to be used, with a view to the preservation of the public health, peace and safety. For the purpose of such investigation the Board of Health shall have the assistance and cooperation of the superintendent of public works, health officer, the chief of police and every other department, bureau or officer of the city of Kingston.

Section 5. When License May Be Refused: A license may be refused by the Board of Health to any applicant or applicants if any of the persons in the application or connected or associated therewith are not of good moral character or have within five years of the date of the application been convicted of a felony or within one year of a misdemeanor, if any of such persons have previously been connected with a refreshment business, the license for which has been revoked; or in which business any of the provisions with reference to the refreshment business have been violated, or if the refreshment business sought to be licensed does not comply in any way with the regulations, ordinances and laws applicable thereto. No license shall be refused except for a specific reason, and for the protection of the public health, safety, good order or morals. If the application is rejected, the Board of Health shall notify the applicant in writing giving the reasons for the same. No applicant to whom a license has been refused, shall make further application until a period of at least six months shall have elapsed since the last previous rejection unless he or it can show the reason for such rejection no longer exists.

Section 6. Transfer of License: No transfer of license as to location or ownership shall be granted except after application therefor or upon form provided by the Board of Health who may grant or reject such application after investigation. If the application for transfer is approved, this action shall be endorsed upon the license by the Board of Health.

Section 7. Posting License: Every person licensed in accordance with the provisions of this ordinance, shall immediately post such license and keep the same posted while in force in a conspicuous place in the premises where such business is authorized to be carried on. The license shall be enclosed in a suitable wood and metal frame, having a clear glass front and a suitable wood or metal back, so that the whole of such license may be seen therein. It shall be unlawful for any person to post such license or to be permitted to post it upon premises other than those named in the application for such license, or knowingly to deface or destroy any such license. Whenever a license shall be lost or destroyed, without fault on the part of the holder or his agents or employees a duplicate license in lieu thereof under the original application may be issued by the Board of Health in its discretion.

Section 8. Closing Hours: It shall be unlawful to keep open to the public or to conduct a refreshment business, as herein defined, on any day between the hours of 12 o'clock midnight and 6 a. m. This section, however, shall not be construed to prevent regular employees from performing necessary work during these hours to maintain the premises in a sanitary condition.

Section 9. View Not to Be Obstructed: Any room in which a refreshment business is conducted shall be so constructed and maintained that a clear view of the interior of such place may be had from the street in which such business is located, and shall be free from any screens, partitions or obstructions which prevent a clear view from the street; provided, however, that such place of business which is not located on the ground floor or which room does not directly front or abut on any street, shall be so constructed and maintained that such view of the interior, as above described, may be had from any entrance to such room. If a bar is maintained in such place, it shall be unlawful to obstruct entrance behind such bar by gates, fences, doors or any other form of barrier or to permit empty bottles or any other thing to obstruct the en-

trance to the rear of such bar. This section shall not apply to a drug store or pharmacy where a pharmacist, duly registered under the laws of the State of New York, is in actual and personal charge, and the business therein conducted is carried on in good faith as a drug store or pharmacy.

Section 10. Not To Harbor Intoxicated Persons: It shall be unlawful for any person owning, conducting or in charge of any refreshment business, as defined in this ordinance, to harbor intoxicated persons on the premises or to permit the drinking of intoxicating beverages therein, or to allow intoxicated or partially intoxicated persons to resort thereto, or to permit any disorderly or indecent or immoral or unlawful conduct on or in such premises.

Section 11. Liquor On Premises Prohibited: No person to whom a license is granted under the provisions of this ordinance shall receive, possess, give away or sell, have or permit upon the premises, any liquor or beverage which contains any alcohol in excess of the amount permitted by law. This section does not apply to drug stores or pharmacy where, in a pharmacist, duly registered under the laws of the State of New York, is in actual and personal charge.

Section 12. Not To Endanger Health: No person, either as principal or agent, shall sell any beverages described in section one containing ingredients detrimental or deleterious to health.

Section 13. Premises To Be Kept Sanitary: It shall be the duty of every licensee at all times to keep the premises where such refreshment business is conducted, clean and in a sanitary condition. All persons employed or working in such premises shall be clean and cleanly clothed and free from communicable disease. All utensils, appliances, vessels, receptacles, refrigerators and any other place or thing whatsoever, which are used for the purpose of serving or storing, must be at all times kept in a clean, wholesome and sanitary condition. An adequate supply of hot and cold water for cleaning purposes shall be provided, and glasses, dishes and spoons shall be sterilized in boiling water or live steam after each use, or where it is impossible to use boiling water, or live steam, sterile, dishes, cups and spoons, made of paper, wood or other suitable material and handled in a sanitary manner, for one service only, may be used. All glasses, dishes and straws used shall be reasonably protected from dust and flies.

Section 14. Inspection by Officials: It shall be the duty of the health officer, and he is hereby authorized and empowered from time to time to inspect and examine or cause to be inspected or examined all of such premises where a refreshment business as herein defined, is conducted, for the purpose of ascertaining whether all of the ordinances of the city of Kingston and laws of the state of New York, relative to conducting such business are being complied with in such premises. Such inspection and examination shall be made at any time when the place inspected shall be open to the public for business or otherwise occupied as provided for by section 8 hereof. It shall be the duty of each and every person conducting a refreshment business as herein defined, or his or its representatives or employees, to assist the health officer and his inspectors or employees in the making of such inspection, and when required, to furnish samples of any materials whatsoever, which are kept or offered for sale, which samples shall be examined or analyzed in a proper manner by or under the direction of such health officer and the record of such examination or analysis shall be made and kept on file in his office. It shall be the duty of the chief of police, and he is hereby authorized and empowered, from time to time to inspect and examine or cause to be inspected or examined, all premises where refreshment business is conducted, for the purpose of ascertaining the general reputation and character of the place and of the persons who habitually frequent such place; the nature and kind of business conducted at such place by the licensee or by any other person; the nature and kind of entertainment, if any, of such place; and whether such place is conducted in a lawful, quiet and orderly manner. Such inspection and examination shall be made when the premises are open to the public for bus-

ness or otherwise occupied as provided in section 8 hereof.

Section 15. Revocation May Be Recommended: The health officer or chief of police may at any time in writing recommend the revocation of any license issued pursuant to this ordinance stating the grounds upon which such recommendation is made, and the Board of Health may revoke such license by notice, in writing, whenever it shall appear to its satisfaction from the recommendations of the health officer or chief of police or otherwise that such licensee has violated any of the provisions of this or any other ordinance of the city of Kingston, or of the laws of the state of New York or of the United States, or if a false statement has been made by the licensee in his application for a license. The health officer, chief of police, members of the police force and all other officers who are charged with the enforcement of this ordinance shall at times when such premises shall be open to the public for business or otherwise, occupied as provided in section 8, have access to any part of the premises occupied by a refreshment business and shall be allowed to take samples of any liquors or beverages found upon such premises, and refusal by any person conducting such business or in charge thereof to permit the examination of such premises or the taking of any samples shall be a violation of this ordinance and shall be sufficient reason for the revocation of the license.

Section 16. Hearing on Complaint: Upon complaint, in writing, filed with the Board of Health or upon its own motion the Board of Health shall cause to be served upon any licensee a notice specifying the grounds for a complaint and fixing a time and place at which the Board of Health shall hear such charges, which time shall not be less than three days from date of service of notice, at which time and place the person against whom the complaint is filed shall have an opportunity to be heard and to make his defense against such complaint.

Section 17. Revocation or Suspension of License: Any licensee who shall violate or shall permit a violation of any laws of the United States, of the laws of the State of New York or of this or any other ordinance or rule or regulation of the City of Kingston within such licensed establishment, shall be liable to have his or its license suspended for the first violation by the Board of Health for a period of thirty days and for the second violation for a period of sixty days; provided, however, that upon the third violation such license shall be revoked by the Board of Health; provided further, that the Board of Health shall have the right to revoke such license upon the first or second violation. The Board of Health shall also have the right to suspend or revoke such license whenever it shall be shown to its satisfaction that the business so licensed is being conducted in a manner which is detrimental to the health, morals, peace or safety of the community; provided, however, that when such license is suspended or revoked the licensee in writing and give the reasons for such suspension or revocation. Upon the revocation of any license the unearned portion of the license fee shall be returned to the licensee upon his application therefor, provided that no fraction of a month shall be included in the computation. When a license has been revoked no other license shall be issued to the same licensee within one year.

Section 18. Notices: Any notice provided for in this ordinance shall be served, either by delivering a copy personally to the licensee or by leaving a copy with some person of suitable age and discretion at the place of business of the licensee and actually or apparently in charge thereof; or if no such person may be found at the place of business of the licensee, by posting such notice in a conspicuous place on the premises, and mailing a copy of the notice to the licensee at his place of business as set forth in his or its or their application for a license.

Section 19. Penalties: Any person, society, club or firm, partnership, corporation or association of persons who himself or itself or by his or its clerk, agent or employee, shall conduct a refreshment business without the license required by this ordinance, or shall violate any of the provisions of this ordinance, or who, having had his, its or their license

suspended or revoked, shall continue to operate such refreshment business, shall, upon conviction, thereof, be subject to a fine or penalty of not less than \$5.00 or more than \$50.00 and each day on which such violation continues shall constitute a separate offense.

Section 20. When To Take Effect: This ordinance shall take effect and be in force immediately after its passage, approval and publication according to law.

Got \$600,000

LAWRENCE C. THAW

Charging that her grandson, Lawrence Copley Thaw, imposed upon her old age, Mrs. Mary Copley Thaw, mother of Harry K. Thaw, sued Lawrence for \$600,000—the sum she said she gave him when he represented he had not been fairly treated in his father's will.

CURRENT OFFERINGS AT THE THEATRES

"The Charmer," which closes its engagement at the Keeney Theatre tonight offers Miss Negri the best role she has ever had and is the most elaborate production either Miss Negri or Mr. Olcott, who is the producer, has ever done. Some very interesting and pleasing short subjects are on this bill to make it complete while Jimmie Connors offers some very pleasing selections. Rin Tin Tin, the "Wonder Dog," comes to the Keeney Theatre for the last half of this week opening tomorrow in "Tracked in the Snow Country." This is a red blooded story of a fighting dog.

Jackie Coogan in what is considered the best picture that he has ever appeared in, "The Rag Man," closes his engagement tonight at the Opera House. This is a picture of comedy and pathos, about a little Irish orphan who, finding himself alone in New York, attaches himself to an old Hebrew junk dealer and brings the latter into a wealth of hilarious adventure. Opening with the matinee tomorrow at the Opera House are splendid acts of vaudeville will be seen, and the big photoplay feature will be Shirley Mason in "Scandal Proof."

At the Auditorium tonight Richard Barthelmess will be seen in "Classmates." The picture is said to be one of Barthelmess's best.

REAL ESTATE TRANSFERS.

Deeds Recently Recorded With the County Clerk.

The following deeds have been filed in the office of the county clerk:

Van Rensselaer J. Rockwell to David Kantrowitz, a residence property on the westerly side of Washington avenue. Consideration \$1.

Ivan F. DeHoff and Ruby Ruth DeHoff to Agnes Bopp and Sophie Bopp, two parcels of land and building on Clinton Park, Rosendale Boulevard, Kingston. Consideration \$1.

Clarence A. Hoornbeek as referee to Louis Drazzen of New York, a property in the town of Wawarsing. Consideration \$8,500.

Jessie P. Burwell to Wilbur J. Haviland and another, a property in the town of Lloyd on highway leading from Milton to Highland. Consideration \$15,000.

"What's that girl doing with a tobacco pouch?"

"Tobacco pouch nothing! That's her bathing bag."

There are more jiggers than the one in the "funny paper" who married a striking woman.

The Exception to the Old Rule. All Hank Ford touches turns to gold. With one exception men. The car he makes. No such turn takes—All Lizzies still are tin!

"My goodness!" remarked the old gentleman as he stopped the young lad with the fine catch of trout. "You've had a very successful day, young man. Where did you catch all these fish?"

"Just walk down that patch marked 'Private' and keep right on till you come to a notice, 'Trespassers Will be Prosecuted.' A few yards farther on there's a fine pool in the river marked 'No Fishing Allowed,' and there you are, sir."

Justice Stone says the grafting prohibition agent should be smitten hip and thigh, but they don't carry anything on the thigh.

A lady who has been married five times says she is happy now, because she has at last found a man who bosses her. Think of what's troubling in the breasts of the other four.

Inimitable. When mother scolded Dickie, Because he tied a pack To the unsuspecting Poodle's tempting tail. The lad seemed strangely startled And quickly answered her, "That is something, mother, Which is bound to a cur."

The expression of "the four corners of the earth" probably originated when the flat system of geography was being taught.

Being poor is no disgrace but is unhandy and soon becomes monotonous.

After vain attempts to land their cargoes, twelve of the sixteen vessels on rum row put out to sea Thursday. It is understood there was considerable moaning of the bar.

"Of course, if I stay on this street will it take me to the public library?"

"Yes, ma'am, if you keep moving."

One swallow does "not" make a summer but it often causes a fall.

Leap year may be over, but, quoth the bachelor, a little widow is a dangerous thing.

"Should we have female architects?" is being discussed in a daily paper. A male cynic unparadoxically protests that there are quite enough designing women about already.

She's a farmer lass, therefore he calls her Tillie.

The street car was crowded. "Look, mummy, look!" squealed little Freddie, as a passenger took a seat opposite. "There's the man who comes every week for the furniture money."

Please don't tell us any secrets. What the dickens is the use of knowing something when you have to keep it yourself.

(Copyright, 1925, Office Cat Syndicate, Marion, Indiana.)

What's the Matter With Smith Today?

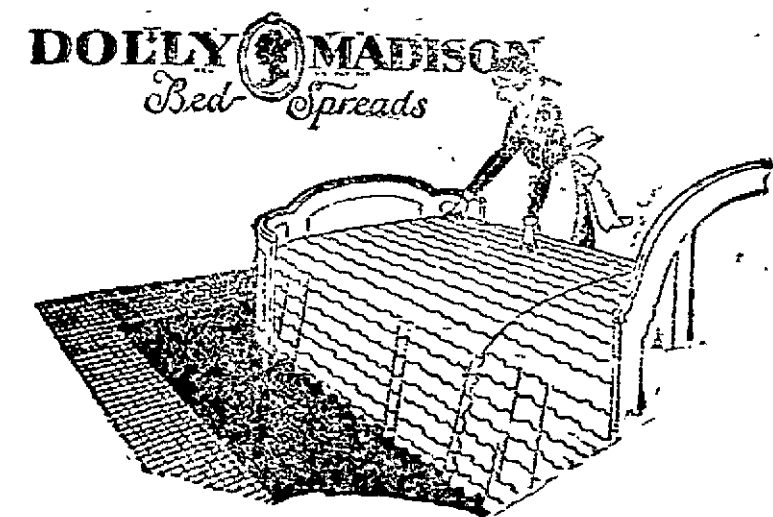

It's a wonderful feeling to be able to tackle your work every day with snap and vigor. You go forward or backward according to your health. Ill health causes more failures than any other one thing.

Get the spirit of youth! Acquire the appearance of success by radiating the magnetism of good health. Gain strength to meet your daily tasks. Build up your nerve vigor. Put iron into your blood. Be a success, not a failure.

If you are run-down, tire easily, lack endurance, if you are weak, thin anemic, if you want to put firm, stay-there flesh on your bones, try taking one of BURKE'S COD LIVER OIL and IRON TABLETS four times a day with your meals. No doubt many of those around you who are strong, vigorous and successful, owe their appearance to this very thing. Banish "bad" days. Make every day count. Feel good all the time.

The new scientific method of presenting the body-building elements of Cod Liver Oil in tablet form makes it possible for thousands to get the benefit of this great tonic who never before have been able to take it because of its nauseous fishy taste. Now all this has been changed and Cod Liver Oil has been combined with iron and other health-building ingredients to form the quickest weight builder and strengthener known in all medicines. Just one concentrated tablet of BURKE'S COD LIVER OIL and IRON taken four times a day with meals will bring amazing increase in your bodily vigor and marked changes for the better in your appearance. These improvements will be noticeable in a very short time—in most cases within a few days. This condition of better health and greater strength will not leave you—it will be permanent and lasting as you continue this wonderful vitamin treatment.

SERVICES AT THE REFORMED CHURCH OF THE COMFORTER

After next Sunday there will be no more services in the Reformed Church of the Comforter until September. It is hoped that there will be a large representation of the church at the preaching service next Sunday morning, and that all pledges may be paid in full up to August 1st. Any one paying their pledges up to September 1st, which is already approaching, will be considered as having fulfilled their obligation.

The Thursday evening prayer service will be the last until after vacation. A cordial invitation is extended to all to attend this service, which begins at 7:45.

Lady Faith Montagu Arrives.

Lady Faith Montagu, daughter of the Countess of Sandwich, who before her marriage to the Earl of Sandwich was Miss Alberta Stokes, arrived Monday on the Minneapolis with her grandmother, Mrs. Francis H. Leggett of Ridgely Manor, Stony Brook, N. Y.—New York Evening Sun.

SerVICES at St. John's Church.

The Thursday morning service will be omitted this week. On Saturday, which is St. James' Day, there will be a celebration of the Eucharist at 8 a. m. Services on Sunday text as usual, at 8 and 10:45 a. m.

Government to Spy On Local Officials

Federal Dry Enforcement Bureau to Maintain Indexed File of Local Officials' Attitude Toward Prohibition—Treasury Agents Investigating Their Records.

By Telegraph to The Freeman.

Washington, July 22.—An indexed file of the attitude of every federal, state, county and municipal official in the United States toward prohibition will be maintained by the treasury, it was learned today.

Supplementing the reports made to the department of justice by federal attorneys, indicating startling conditions of corruption throughout the country, the new prohibition program contemplates a detailed record of public opinion, enforcement conditions and the activities of public officials.

Already treasury agents are making a careful study of the past records of most of the enforcement officials and agents and the thousands of others who have applied for positions in the new prohibition machine.

These records will be maintained by General L. C. Andrews, prohibition czar, as a "big stick" to be wielded when political leaders or other outside agencies threaten to upset the treasury's program. Appointment of individuals whose personal rating cards are crossed with black marks will not be made, it was learned.

To broaden the scope of the prohibition study inaugurated by Mrs. Mabel Walker Wilebrandt through federal attorneys, the treasury has at its command the special intelligence unit of the bureau of internal revenue and a corps of expert investigators in the customs service.

Prohibition headquarters expects to maintain an accurate up to date picture of enforcement conditions in every locality of the United States.

The question of whether state, county and municipal officials who fail to support the Eighteenth Amendment are fulfilling their obligations of office will be considered by the federal government in many states officials upon taking the oath of office swear allegiance and support to the Constitution of the United States.

The Couzens senatorial committee, which has made a study of the bureau of internal revenue, may open its probe of prohibition enforcement as a result of the department of justice disclosures.

In the plan to assist enforcement by a cooperative agreement among all government departments, it was understood that the treasury contemplates asking for moral assistance from the army and navy. Officials pointed out that while these agencies cannot be used directly for enforcement of the prohibition law, their cooperation would be invaluable. Officials declared that all law-enforcement agencies of the government have agreed to assist in the new prohibition program. W. W. Husband, assistant secretary of labor, is chairman of a commission organized by Andrews to draw up the cooperative plan. A meeting of this commission is anticipated as soon as the new dry system becomes effective.

Cultivation of the Snail

The harvest of the succulent snail of the cultivated species for European consumption has begun in Switzerland and France, and thousands of men and women will be busy throughout the summer in this curious industry. The annual production in both countries is about three million pounds, but as the demand is far greater than the supply the devices of the adulterator supplement nature, and pieces of meat, generally veal, are introduced into the empty shells. The large fields which are prepared for the propagation of the snail generally lie at the edge of a wood or forest, sheltered from the sun. The soil of the farm is well sanded and limed, and round it is built a wall two or three feet high.

Foolish Suicide

Walter S. Gifford, who at forty is president of the American Telephone and Telegraph company with its payroll of 340,000 employees, said in a recent interview in New York:

"I saw in today's paper an account of the suicide of a young lawyer. He had a good future before him, but he permitted one or two failures to drive him to despair. Yet the most successful men have more failures than successes to their credit.

"This sad case," Mr. Gifford ended, "is just another proof that a man is never too old to learn, but often too young to realize it."

Looking to the Future

A gymnasium will be provided for the dormitory which Harvard university is erecting for its medical school. In presenting \$125,000 for the gymnasium, the donor, Mr. H. S. Vanderbilt, stated: "The students will learn from experience of the road which it has done their own minds and bodies, the benefit which would accrue to their future patients and unaided by their own and encouraging exercises of a similar nature."

Contest Ends in Roof Estate

Niece Receives Year's Dividends on Stocks Selected for Her By Executrix Under Wealthy Man's Will.

The threatened litigation over the settlement of the accounts of Frank Henry Roof Connell, the adopted daughter and executrix of Clarence N. Roof, late of Winton Lodge, Branch, town of Denham, in this county, has terminated peacefully.

Katherine Metcalf Roof, Mr. Roof's niece, who started out with the claim that he had received from his father \$2,000,000 in trust for her benefit, conceded from that position.

Surrogate Kaufman held that Mrs. Connell under the provisions of the will was authorized to select the four hundred shares of dividend paying railroad stock which Katherine should receive. Mrs. Connell selected 200 shares of Pennsylvania railroad and 100 shares of the Standard Oil of New Jersey, preferred.

When claims she was entitled to the dividends declared on those stocks from the day of Mr. Roof's death, as she had been offered the stocks when the will was limited by law for the payment of legacies, Judge Clearwater represented Mrs. Connell, disapproved the contention and the surrogate gave Judge Joseph M. Fowler, who presides over this court, and the Clearwater a fortnight in which to file briefs on that question.

When it turned out that Katherine

who is an authoress of some distinction, was suffering from impaired eyesight, Judge Clearwater stated that his sympathy with people suffering from impaired hearing or eyesight was so strong that he would advise Mrs. Connell to concede the point and to pay the dividends. This was done, and a final decree closing the estate upon that basis was entered on Tuesday.

Mr. Roof had been a resident of Ulster county for forty-five years, and owned what probably is the best trout preserve in the county. Years ago he bought and until his death kept a long reach of the Neversink river which he carefully preserved and thoroughly policed. Since his death Mrs. Connell has had several offers for it but she has no desire to sell although she does not fish.

Police Widows Go To Camp

The annual outing for the children and widows of New York policemen killed in the line of duty, began Tuesday. Fifty women and nearly a hundred children were taken in automobiles to the police recreation camp near Tannersville, where they will remain for two weeks. They will be followed by a second group of widowed mothers and their children.

Secures Position

Miss Beatrice S. Fowler, an honor graduate of Spencer Business School, 224 Fair street, has been placed on a temporary position as stenographer and typist with the Canfield Fugate Company, East Strand.

Miss Fowler's position and salary were secured through the efforts of Mr. J. W. Wood's—Advertisement
